**Summary of Events and Information.**

**Routine**

Lt-Col King left for England, Capt. A.H. Andrews became acting D.A.D.O.S.

A.A.C.O. advised at 1100 hrs that the N.W. Div had to draw the tentage and accommodation stores for a British 200 Bde, which was expected to arrive at Helwan Camp on Saturday 1 June. 24 3-ton lorry loads of tentage were drawn from Abbassia that afternoon after Ordnance Schedules of tentage had been recapitulated as they had assumed no buildings at all and had originally provided tentage for messrooms, cookhouses etc.

A further 16, 3-ton loads of tentage were dispatched from Abbassia by 9:30 am. After a rapid review of the Ordnance Schedules of Accommodation Stores, loading commenced about 10 a.m. and by 3-30, the last of 50 3-ton lorries rolled away to Helwan. Ordnance insisted on issuing from bulk instead of issuing by units, with the result that very careful loading was necessary in order to ensure that distribution at Helwan was accurate and as simple as possible.

Most of day spent at Helwan in consultation with Q.M.'s of the four units, checking up stores they should have received and sorting out wrong distribution which did occur in respect to one or two loads the previous day.

Conference of Armourers - the main point of discussion dealt with the zeroes of rifles. Consensus of opinion was that this was necessary and armourers were instructed to see that this was completed as soon as possible. 27(48) BN had already been completed.

Further visit to Helwan in afternoon.

Enquired from D.A.D.O.S. (F) whether Ordnance Abbassia could supply us with 6,300 pairs of socks monthly as from end of June if our socks did not arrive in time from M.E. Answer 'Yes'.

Spare tyres and wheels for A.T. guns have to be procured from England, this is consequent upon the modification to the A.T. guns which involved the fitting of larger wheels.

D.A.G. 2 Echelon have raised a query about the rank of the Armourers attached to Bde H.Q. D.A.G. O.S. is fully conversant with the position and it is intended to leave it open until he can deal with it. Armourers tools previously demanded now available.

Conference with A A & Q.M.G and O.C. Base regarding to be adopted in connection with equipment when personnel are transferred either to Base or between units.

After consultation with A A & Q.M.G, D.A.D.M.S. decided that the Medical Stores taken off the transports and stored by Ordnance should be opened up examined and taken over by A Field Ambulance.

Arranged for supply of equipment for Discharge Depot personnel in view of the special job these men are to take over.

Morning at Abbassia in connection with painting of our vehicles - conversion of 30 cwt trucks & Fortes for A.Tk Bty and modification to Number cars.

Routine

Declaration of War by Italy - commenced drafting instructions for War Accounting

B.T.E. had issued instruction that all indents prior to 1 June were to be cancelled with certain exceptions; Sawn C.O.C. and Group Officers concerned and persuaded the C.O.L. that Clark commenced packing equipment for to allow the majority of our indents to stand. Fts Clark commenced packing equipment for 300 bed hospital at Range Depot, Abbassia. This is to be held by Ordnance packed so that the hospital can be established at 48 hours notice if necessary.

All L.A.D. O.M. Es were issued with Number Utility cars on loan until their own 2 seaters arrive.

WAR DIARY

or

INTELLIGENCE SUMMARY.

(Envelope heading not required.)

Summary of Events and Information.

After discussion A.A. & C. M.G. directed that all web equipment should be replaced by 1937 pattern - regardless of the fact that War Equipment tables in some cases provide for a certain amount of 1908 Patt. Web.

APPENDIX A

(1) CLOTHING
The diversion of the Second Contingent to England meant that certain replacements of clothing for which the First Contingent was waiting had to be obtained from R.A.O.C. Abbasia. So far no difficulty in regard to supply from R.A.O.C. has arisen except in the case of hats.

An initial supply of 400 were received from England about 15 June but losses and replacements will soon absorb this number and steps are to be taken to expedite further supplies from England.

(2) STAFF HEALTH
The following were absent from duty due to sickness for the period shown.

5436. Heron, J.N.S. Pte. 16/5/40 - 23/5/40.
16/6/40 - 22/6/40.

(3) ISSUE OF EQUIPMENT
In general the main equipment drawn during this month consisted of 1937 Pattern web equipment, wireless sets and a few signalling stores.

Captain
for Lt.-Col. R.A.O.C.
